NUMERICAL MODELLING AND DESIGN OF A SMALL SCALE TIMBER DRYING KILN

BY

SYAMUNYANGWA TANDA.

‘Report submitted in partial fulfillment of the requirement for the award of the Degree of  
Bachelor of Engineering of the University of Zambia’

APRIL 2011

To my family, for your unconditional love, ceaseless support and making this world a better place for me.

## **ACKNOWLEDGEMENTS**

It is a great pleasure to acknowledge the people who contributed their support, time and physical energy to this project. Foremost, I acknowledge the inestimable guidance, advice and encouragement my supervisor Mr. E. Luwaya ceaselessly provided throughout this study, which spanned for a year.

I also acknowledge the help and support rendered by my senior supervisors Dr. P. Chisale and Dr. Mwenda for their expertise and continuous support. I also extend my gratitude to my friends, with whom I shared many wonderful experiences and friendly diversions.

All this work would have been neither possible nor meaningful without the understanding, patience and unflagging support from my family.
